Hosting Upgrade Appeal

The Tap has become increasingly busy over the last few weeks with many more visitors and sign ups. It's currently creaking and slowing. We need a hosting account upgrade to help cope with the increased activity and keep this free blog online. It would be sad to lose it but it costs to keep it going and free to use. If any of you can help donate even a small amount towards the hosting upgrade that would be a big help. Thank you. Click here to donate

Trump's technocracy – the 'entrepreneurial' approach to government

Technopopulism: When Technocrats Take Over The Government

POSTED BY: PATRICK WOOD NOVEMBER 19, 2024

Technocrats know how to play the long game. In 1932, a little hardcover book, ***Roosevelt and Technocracy***, was published at the time when Roosevelt was riding high on the populist sentiment of hopium, promising to dig America out of a hopeless economic depression that was widely blamed on banksters and corrupt politicians. (Shades of today...)

The author set the stage for the coup of the century:

"Technocracy is the most constructive play devised for the attainment of our economic stabilization. The gospel of Technocracy is spreading through our schools, universities and churches. Wall Street is exhibiting an intense but worried interest, and is it whispered, even the Vatican is closely following the progress of this new brain-child of our engineer-scientists."

Next, he made the claim of inevitability that *"assuredly Technocracy will come"* but then laid potential failure on *"its coming will be delayed by political maneuvering and financial chicanery,"* as *"we pass through a period of Chaos."*

The Alternative View 5G Special

Ah, but the “*extent and severity of the period is wholly within the control of the people.*” an ignorant bunch at best, necessitating “*radical and immediate changes in both our political and economic systems will be necessary.*”

Now the hook is baited and the line cast upon the water. The saviors of humanity have arrived. The answers are plainly evident. Indeed, the *only answer*:

“This can best be accomplished by vesting supreme and emergency power in some one man who has the confidence and respect of the majority of the American people.

“That man is FRANKLIN D. ROOSEVELT – to whom should be given dictatorial power in the approaching crisis.”

Do you think this was what the citizens wanted? Unelected and accountable scientists and engineers appointed top to bottom to run the country with no oversight?

As if this fait accompli is already a forgone conclusion, the author turns to the reader to make this appeal:

“We can depend on the innate courage, sound judgement, and true sportsmanship of the average American to gain his objective in a peaceful and orderly manner.”

So, they expected the people to roll over and go along because of “innate courage”, “sound judgement” and “true sportsmanship”?

Here we are in 2024 and the same con game is being foisted upon us. While the populists of today cheer their champion (Trump) for his Cabinet appointees, for his pledges to resuscitate the economy and for his pledges to reinstall justice (all good things do to!), Technocrats have arrived to reorganize the government. And not just any run-of-the-mill Technocrats either, but arch-Technocrats like Elon Musk and Vivek Ramaswamy who have been appointed to run a newly created “Department of Government Efficiency” or DOGE.

STATEMENT FROM PRESIDENT DONALD J. TRUMP

I am pleased to announce that the Great Elon Musk, working in conjunction with American Patriot Vivek Ramaswamy, will lead the Department of Government Efficiency ("DOGE"). Together, these two wonderful Americans will pave the way for my Administration to dismantle Government Bureaucracy, slash excess regulations, cut wasteful expenditures, and restructure Federal Agencies - Essential to the "Save America" Movement. "This will send shockwaves through the system, and anyone involved in Government waste, which is a lot of people!" stated Mr. Musk.

It will become, potentially, "The Manhattan Project" of our time. Republican politicians have dreamed about the objectives of "DOGE" for a very long time. To drive this kind of drastic change, the Department of Government Efficiency will provide advice and guidance from outside of Government, and will partner with the White House and Office of Management & Budget to drive large scale structural reform, and create an entrepreneurial approach to Government never seen before.

I look forward to Elon and Vivek making changes to the Federal Bureaucracy with an eye on efficiency and, at the same time, making life better for all Americans. Importantly, we will drive out the massive waste and fraud which exists throughout our annual \$6.5 Trillion Dollars of Government Spending. They will work together to liberate our Economy, and make the U.S. Government accountable to "WE THE PEOPLE." Their work will conclude no later than [July 4, 2026](#) - A smaller Government, with more efficiency and less bureaucracy, will be the perfect gift to America on the 250th Anniversary of The Declaration of Independence. I am confident they will succeed!

Consider the far-reaching scope of DOGE:

It's the "Manhattan Project" of our time

To dismantle Government bureaucracy

To drive large scale structural reform

To create an entrepreneurial approach to government never seen before

To liberate our economy

Whatever pact Trump has made with Musk and Ramaswamy to restructure our government, he promises that it "will be the perfect gift to America on the 250th Anniversary of the Declaration of Independence."

I suggest not. It will be the perfect destruction of the principles enshrined in the **Declaration of Independence**:

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

Be careful what you wish for, America. The right of the people to “alter or to abolish it, and to institute new Government” does not include Technocrats like Elon Musk and Vivek Ramaswamy.
